JOIN US AT THE 34ᵀᴴ SAIIE CONFERENCE | OCTOBER 2024.

Humanity stands on the brink. Climate change, dwindling resources, poverty, illiteracy, and technological disruption represent clear and present dangers to our posterity. However, all is not lost. *"Because knowledge belongs to humanity, and it is the torch that illuminates the world,"*- Louis Pasteur

Industrial engineers play a critical role in illuminating problems and developing solutions by applying their knowledge in systems analysis, process improvement, data-driven decision-making, and myriad other applications. Indeed, we are the glue that binds enterprises together, the oil that lubricates the engine, the spotlight that shines forth towards the vision.

Two questions often asked are "What is this," and "How is this done?" The second question immediately illuminates the first, but it often does not get asked. Perhaps it sounds too technical. Perhaps it sounds pedestrian. Whichever the case, come and ask the questions freely, proffer the answers, engage in the discussion, or simply sit back and bask in the glow of Industrial Engineering brilliance. Academics, Practitioners, Students and all who have the profession at heart, there is a reason to hope, a reason for hope. So, come, heed the call, and join us at the 34th SAIIE Conference in October 2024.

We urge you to contribute to the conference with a full paper or in the presentation-only track. The full paper track will require the submission of an abstract which, if accepted, will be followed by the submission of a full paper which will be subject to a peer-review process. Papers that pass the peer review process will be published in the conference proceedings. Conference proceedings are loaded to and indexed on Proceedings.com.

SAIIE34
ILLUMINATE
14-16 OCTOBER 2024
RIVERSIDE SUN, VANDERBIJLPARK

ILLUMINATE THE PATH AHEAD

The best papers will be reviewed and published as full journal papers *in a special edition of the ISI-listed South African Journal of Industrial Engineering (SAJIE), without further review.*

The presentation-only track will require only the submission of an abstract.
The presentation-only track has been a proven path for industry to meaningfully engage and share knowledge at the conference, and we strongly encourage practitioners to explore this option.

Accepted abstracts from both tracks will involve either a presentation with a panel discussion session, or authors can also select to only participate in the highly interactive poster session. Papers presented in the discussion session or at the poster session will be eligible to be published in the Conference Proceedings, with the best papers being selected for the special edition of SAJIE.

IMPORTANT SUBMISSION DATES

Abstract and full paper track submissions open	18 January 2024
Abstracts for full paper submission track deadline*	26 February 2024
Full paper deadline**	10 June 2024
Final camera-ready papers deadline	19 August 2024
Submission for presentation-only track deadline	12 August 2024

Abstracts should be no more than 150 words and should provide an overview of the full paper that will be submitted.

**Please respect our deadlines as they have an impact on the quality of work that we collectively produce.*

To submit an abstract, please upload using the EasyChair platform:
